Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Wednesday 10 Nov 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Damp and murky in the south. Clearer further north.

This Evening and Tonight:
Central and southern England and Wales mild with some drizzle and low cloud. A few fog patches, mostly on hills. Clearer across Northern Ireland, southern Scotland and northern England with patchy frost. Windy and showery in the far north.

Thursday:
Patchy fog slow to clear from England and Wales, some light rain in places. Sunny spells, especially in the northeast and south. Wet and windy in the far northwest later.

Outlook for Friday to Sunday:
Rain, locally heavy, with coastal gales, will sink from northwest to southeast across all areas, most persistent for the Northern Isles. Becoming mainly dry, though often cloudy thereafter. Mild.
